

# MAT013 - R: C3 - Challenge Sheet

## Data Manipulation

The datafiles [Dates\\_1996.csv](#) and [Prices\\_1996.csv](#) contain data for holidays taken in 1996. There are 3 variables in Dates\_1996.csv:

- The ID
- Start Date
- End Date

There are 2 variables in Prices.csv:

- The ID
- The Price

The data file [Holidays\\_1995.csv](#) contains data for holidays taken in 1995. There are 4 variables:

- The ID
- Start Date
- End Date
- The Price

Obtain a report regarding the holidays taken in 1995 and 1996. Pay particular attention to the price per day of a holiday.

Prepare a presentation on the above, making full use of the features discussed in chapter 3 of the course notes. Include the code used in your presentation.
